MITSUBISHI ELECTRIC
Changes for the Better

Welcome to Mitsubishi Electric

at SPS Smart Production Solutions 2026

Further information and your free visitor ticket:

- Request your free visitor ticket and find detailed information about our exhibition at de-fa.mitsubishielectric.com/fa/de_en/lp/sps-messe
- Additional services: technical support and pre-sales advice
- Your feedback supports the continuous improvement of our services

Automating the World

MITSUBISHI ELECTRIC
Changes for the Better

Welcome to Mitsubishi Electric

at SPS Smart Production Solutions 2026

THREE THEMES. ONE FACTORY

Efficient. Secure. Transparent.

SPS – Smart Production Solutions
Hall 6, Stand 348.

THREE THEMES. ONE FACTORY

Efficient. Secure. Transparent.

Mitsubishi Electric stand tour

SPS Smart Production Solutions 2026

MELSOFT Gemini
- Simulation and digital-twin engineering

Nozomi Networks
- Monitoring OT and IoT networks, identifying systems and devices, and detecting cyber risks and anomalies

Taktomat robotic application
- Low-vibration, modular robot cell with a weld-free design, overhead robot and linear axis

Product portfolio and innovations
- Drive technology, control system and HMI

The BAR
Visit the bar and enjoy a refreshing drink on us!

Efficient applications:

EM-A motor combined with a TRAMEC gearbox
- Energy-efficient, cost-effective positioning without an encoder

Hydraulics application
- How existing systems can be operated more energy-efficiently

Fraunhofer IOSB
- Concept for AI-assisted PLC programming

Mitsubishi Electric Iconics Digital Solutions GENESIS V11 Software-Defined Manufacturing
- Reduce system complexity, standardise data and enable AI, implement modern security and manage the automation portfolio effectively.

Rubik's Cube Live
- Solved in record time using highly dynamic servo drives

Ready-2-Robot at SPS
- An easy way to get started with robotics
