OLD MUTUAL SUPERFUND SOLUTIONS AT RETIREMENT

FACT SHEET: OLD MUTUAL MAX INCOME INVESTMENT FUNDED INCOME (LIVING ANNUITY)

APPROACHING RETIREMENT AGE: WHAT NOW?

Approaching retirement can be a daunting time because you need to make critical financial decisions that will impact you for the rest of your life. One of the most important of these decisions is how best to use your retirement savings to ensure that you get the income in retirement that you need.

As your partner throughout your retirement journey, Old Mutual SuperFund not only makes it possible to save for your retirement, it also supports you in choosing and buying an annuity that will provide you with an income in retirement.

Old Mutual SuperFund Solutions At Retirement is comprised of two simple, but effective at-retirement annuity options that have been made available by the Old Mutual SuperFund Management Board. These annuity options are Old Mutual Fund Select Annuity (Guaranteed Annuity) and **Old Mutual Max Income Investment Funded Income (Living Annuity)** and both offer you an easy and cost-effective way to seamlessly go from saving for retirement to earning the income you need in retirement.

HOW DOES MAX INCOME INVESTMENT FUNDED INCOME LIVING ANNUITY WORK?

- 

This living annuity allows you to choose where your retirement savings are invested (from a set of investment portfolios designated by the Old Mutual SuperFund Management Board).
- 

You can also select what the annual percentage of your investment amount will be paid to you as a regular income. This is called the drawdown rate.
- 

It is very important that the drawdown rate is carefully considered, because if it is too high, the invested capital could soon run out - leaving you without an income. For this reason, the Old Mutual SuperFund Management Board will recommend a drawdown rate that it believes has a higher likelihood of being sustainable. This rate is worked out according to your age, gender, whether you have selected a joint or a single life annuity, and the underlying investment portfolio chosen.
- 

Max Income Living Annuity does not offer any guarantee that your income will be sustainable or continue for the rest of your life. As such, if you buy this annuity, you need to make cautious decisions about how much income you want to receive.
- 

Should you pass away before your funds are depleted, the remaining value can be left to your loved ones or form part of your estate or it can be used to underpin an annuity in the name of your nominated beneficiary.
