N°2
Pistoni
Pistons

1

1. Assemblare I fascioni lunghi (A) e i fascioni corti testata/pediera(B) usando gli angolari (C) con le viti corte in dotazione (F).Fissare I quattro piedi (G) agli angolari.

1. Assemble the long sideboard panels (A) and the short headboard/footboard panels (B) using the corner pieces (C) with the aid of the short screws included (F). Fasten the 4 feet (G) to the corner pieces (C)

N.B. I fascioni laterali più lunghi hanno 8 fori predisposti per il montaggio del meccanismo a trapezio e 2 fori nel basso per il montaggio della barra reggifondo del contenitore.

PLEASE NOTE: the longer sideboard panels come with 8 holes for the trapezius-mechanism assembly and 2 holes at the bottom for assembling the bottom support bar of the storage bed.

**2**

1. Fissare le due placchette a sostegno fondo (M) con le viti corte (F): una in basso e al centro della testata e l'altra in basso e al centro della pediera.

1. Fasten the two L shaped brackets (M) with the aid of the short screws (F): one at the bottom and in the middle of the headboard, and the other at the bottom and in the middle of the footboard.

**3**

1. Fissare gli angolari alla testata (I) con le 4 viti (F) in dotazione.

1. Fasten the corner pieces to the headboard (I) using the 4 screws (F) included.

2. Posizionare i due pannelli contenitore (N) facendoli scivolare sopra la barra reggifondo(O) e gli angolari(C)

2. Once you are done assembling the bed, position the two storage box panels (N), making them slide on top of the bottom support bar (O) and the corner pieces (C)

**4**

Fissare I due meccanismi (P) ai lati dei fascioni laterali (A) con le viti piu corte (F), avendo cura di verificare il verso destro e sinistro

Fasten the two mechanisms (P) to the sides of the panels (A) with the aid of the shorter screws (F), making sure to check that you are assembling them in the correct direction

5

1. Appoggiate la rete (L) sopra il meccanismo a trapezio (P) e fissate quest'ultimo al telaio della rete con le viti (E) e I dadi diametro 8 in dotazione (D).

1. Lay the net (L) on top of the trapezoid mechanism (P) and attach the latter to the net frame with the supplied screws (E) and diameter 8 nuts (D).

2. Tenere alzata la rete e inserire i pistoni (R) in dotazione (e'opportune eseguire questa operazione in due persone, una che sollevi la rete e l'altra che inserisca il pistone). Fissare I pistoni ad incastro.

2. Hold the net up and insert the supplied pistons (R) (it is advisable for two people to perform this operation, one person lifting the net and the other inserting the piston). Fasten the pistons.

3. Inserire il ferma materasso (Q) al centro della rete.

3. Insert the mattress stopper (Q) in the center of the net.

1.

2.

3.

6

Prima di chiudere il letto posizionare il materasso sopra la rete.

Attenzione: Non lasciare la rete senza materasso con I pistoni inseriti per pericolo alzata.

Warning: Do not leave the bed base without mattress with the pistons engaged for danger of lift-off.
