Re: *Applications of AT&T Mobility II LLC and EchoStar Corporation for Consent to Assign Licenses*, WT Docket No. 25-303; *Applications of Spectrum Business Trust 2025-1, Space Exploration Technologies Corp., and EchoStar Corporation for Consent to Assign Spectrum and Earth Station Licenses*, GN Docket No. 25-302

Dear Ms. Dortch:

Pursuant to Section 1.1206 of the Commission’s rules, 47 C.F.R. § 1.1206, EchoStar Corporation (“EchoStar”) submits this letter summarizing its meeting on December 1, 2025 with Chairman Brendan Carr, Greg Watson (Chief of Staff, Office of Chairman Carr), and Arpan Sura (Senior Counsel and Chief AI Officer, Office of Chairman Carr). Present on behalf of EchoStar were Charlie Ergen, Chairman and CEO; Candy Ergen, Senior Advisor; and Jeff Blum, Executive Vice President, Government Affairs.

During the meeting, EchoStar reiterated that it did not plan to sell its mobile wireless spectrum, but is doing so now given the agency’s unequivocal position that (i) EchoStar’s utilization of its spectrum was not acceptable based on the relatively small number of subscribers using the Boost Mobile MNO network, and (ii) that EchoStar’s continued operations failed to best serve the public interest. Due to severe uncertainty as to whether EchoStar could recoup its multibillion-dollar investments following potential Commission investigations and forfeitures, EchoStar had to abandon its plans to grow its facilities-based MNO operations. To comply with the Commission’s demands, EchoStar has now entered into spectrum sales with Space Exploration Technologies Corp. (“SpaceX”) and with AT&T Inc. (“AT&T”). EchoStar explained how both transactions serve the public interest as set forth in the parties’ applications¹ and urged the expeditious approval of both transactions. As explained in the meeting, the transactions will make EchoStar more competitive by enabling it to still offer service through Boost Mobile’s cloud-native hybrid mobile network operator infrastructure without any disruption to its existing service. Through the AT&T transaction, EchoStar will retain control of

¹ See *Description of Transaction, Public Interest Showing, and Related Demonstrations of AT&T Inc. and EchoStar Corporation*, WTB Docket No. 25-303 (Sep. 18, 2025) (“EchoStar, AT&T Transaction Public Interest Statement”); *Description of the Transaction, Public Interest Showing, and Related Demonstrations of Space Exploration Technologies Corp., Spectrum Business Trust 2025-1, and EchoStar Corporation*, GN Docket No. 25-302 (Sep. 18, 2025) (“EchoStar, SpaceX Public Interest Statement”).

key parts of its customer experience, including the freedom to introduce new offers, products, and services.² And, the SpaceX transaction will also empower EchoStar to introduce its own D2C service to complement its wireless offerings, making the Boost Mobile service more compelling.³ This hybrid MNO business model will not just benefit EchoStar's own customers, but it will also put pressure on all wireless providers to up their game thereby benefiting consumers generally.⁴

Sincerely,

/s/ Jeffrey H. Blum
