MWC Las Vegas has evolved: CIO-led, enterprise-first and network-focused

Dear Mike,

North America's premier event for industrial-grade connectivity has evolved, to bring enterprise IT leaders more of what they need to transform their networks.

MWC25 Las Vegas, in partnership with CTIA, will center around CIO-led thought leadership and high-level networking with enterprise IT leaders in a five-star setting.

If you're not an enterprise IT decision maker, there may be someone in your team or organization who would benefit from attending. Please feel free to forward this email or encourage them to pre-register to receive updates on the speaker lineup, agenda and networking opportunities.

Our new home: Fontainebleau Las Vegas

For the first time, all sessions, meetings and networking will take place under one roof at the five-star Fontainebleau Las Vegas.

All-in-one location

No shuttles or transfers needed.

Network with purpose

Stay with the conversation after the sessions end.

Premium setting

Modern conference spaces alongside world-class dining, entertainment, and amenities.

Easy access

10 minutes from Harry Reid International Airport and connected to the Monorail.

Why attend MWC25 Las Vegas?

This isn't another broad tech conference. It's a focused gathering of the people who can help you evolve your enterprise network successfully.

- **Peer-driven content:** Hear directly from CIOs and enterprise network experts.
- **Real-world deployment playbooks:** Understand what's working and why.
- **Curated networking:** Meet enterprise IT leaders for peer-to-peer recommendations and the technology experts who're solving today's enterprise challenges.
- **Stay ahead:** Learn about 2025's most important trends, challenges, and opportunities.

Themes driving the conversation in 2025

Our agenda will explore the real-world solutions and key technologies that are accelerating enterprise network transformation.

Enterprise use cases across manufacturing, aviation, logistics, and healthcare.

THEME SPONSOR:
Qualcomm

Deploying generative and agentic AI with measurable ROI. Focused on AI infrastructure, not hype.

5G, private networks, Open Gateway, edge compute, eSIM and satellite networks — the technologies making enterprise transformation possible.
