# 1. Overview of the Group

OM Bank Limited (“The Bank”) and OM Bank Holdings Limited (“Bank Controlling Company”, “OM Bank Group”) (hereinafter referred to as “OM Bank”) is a wholly owned subsidiary of Old Mutual Limited (“OML”), forming the banking component in OML’s integrated strategy for deposit-taking and lending activities. The following is a simple graphical representation of the OM Bank legal entity structure:

## Definitions as per Banks Act Regulations:

**Consolidated Bank Controlling Company:** Reflects on a consolidated basis the consolidated amounts relating to the financial statements of the controlling company and its subsidiaries and joint ventures

**Bank Controlling Company:** A public company registered, in terms of the Act, as a controlling company in respect of a bank

**Consolidated Bank:** Reflects on a consolidated basis the consolidated amounts relating to the financial statements of the reporting bank; its branches, subsidiaries, joint ventures and relevant associates

**Registered Bank:** This refers to any bank that has been granted a licence by the Prudential Authority to lawfully act as a bank

# 2. Period of Reporting

This Pillar III disclosure report is prepared for the period ended 31 March 2026 and contains all relevant disclosure templates and respective comparatives to the previous period where applicable. The frequency and timelines of publication are in accordance with Directive 10/2025.

## 3. Scope of Reporting

### 3.1. Regulatory Basis of Consolidation

This Pillar III Disclosure Report has been prepared in accordance with the Basel III Framework and the Pillar III disclosure requirements as prescribed by the Prudential Authority (PA) which was set out through Directive 10/2025. This Directive updates the disclosure requirements set out in Directive 1/2019 and directs banks to comply with the specified requirements to ensure that the internationally agreed-upon Pillar III disclosure framework is fully implemented.

The disclosures are intended to provide market participants with relevant, consistent and comparable information on the capital adequacy, risk profile and risk management practices of OM Bank, thereby promoting transparency and market discipline in line with the objectives of Pillar III disclosures of the Basel framework.

The regulatory scope of consolidation applied for the purposes of this report is consistent with the scope used for prudential regulatory reporting to the PA. Accordingly, the information presented reflects the consolidated financial and risk positions of OM Bank.

### 3.2. Basis of Preparation

This report covers the financial and prudential information of OM Bank, which currently constitutes the sole bank regulated entity in South Africa within the OML Group. Given that the Bank represents the only regulated entity under the OM Bank Group at the reporting date, the consolidated prudential and accounting scopes of consolidation are identical. There are no entities excluded from the regulatory scope of consolidation that would impact the capital adequacy or risk profile presented in this report.

The information contained in this report is based on the month-end actual results and, in some instances, the average balances as contained in OM Bank's regulatory returns which are prepared in accordance and as prescribed by the Regulations.

### 3.3. Assurance and Governance over Disclosure

The integrity of information contained in this report is supported by internal governance process and the document has been prepared and reviewed in line with OM Bank's approved control framework. This disclosure report has been reviewed by OM Bank's Audit and Compliance Committee, Risk and Capital Management Committee and approved by the Board of Directors prior to publication.

## 4. Overview of risk management, key prudential metrics and risk-weighted assets

The following table presents a summary of key prudential metrics related to regulatory capital, leverage ratio and liquidity. Please note that the table below reflects the capital and leverage position at an OM Bank Group level, whilst the LCR and NSFR are reported at a Bank level. Currently there are no material differences between the different levels of reporting.

<sup>(1)</sup> The minimum capital requirement per risk category is 12.5% which comprises the base minimum (8%) plus capital conservation buffer (2.5%) plus the Pillar 2A systemic risk add-on (1%) plus countercyclical buffer (effective 1 Jan 2026) (1%)

<sup>(2)</sup> The increase in equity investments in funds was driven due to increased placements in Money Market Funds during quarter ended 31 March 2026.

## 5. Leverage ratio

The leverage ratio is a non-risk-based measure designed to constrain the build-up of excessive leverage in the banking system. It is calculated as the ratio of the Bank's Tier 1 qualifying capital to its total exposure measure, which includes both on- and off-balance sheet exposures.

This ratio acts as a backstop to the risk-based capital measures, ensuring that the Bank maintains an adequate capital base relative to its total exposure. The following disclosures are prepared using figures as at 31 March 2026.

The decrease in Leverage ratio quarter-on-quarter is largely driven by the decrease in Tier 1 qualifying capital.

## 6. Liquidity coverage ratio (LCR)

The Liquidity Coverage Ratio measures the Bank's ability to withstand short-term liquidity stress over a 30-day horizon. It compares the Bank's stock of High-Quality Liquid Assets (HQLA) to total net cash outflows expected under stress conditions. The values in the table are calculated as the average of the 90-day calendar daily values over the period 01 January 2026 to 31 March 2026. The LCR remains significantly high as the Bank launched during 2025 and is still growing its deposit base, while surplus cash remains in HQLA.

### 6.1. LIQ 1: Liquidity coverage ratio (LCR)

There is a slight increase quarter-on-quarter in the LCR disclosure, this is driven largely by the increase in HQLA during December 2025. This was slightly offset by the continued growth in the deposit balances as more customers open accounts with the Bank.

## 6.2. Composition of high-quality liquid assets

HQLA's refer to assets that can be easily and immediately converted into cash. HQLA's are required to meet specific criteria and are categorised into three levels: level 1, level 2A and level 2B assets. OM Bank currently holds only level 1 assets in the form of Treasury Bills and Government Bonds.
