

# Unscramble the Words

We know germs are on a lot of surfaces in the classroom but we forget all the good ways we can keep ourselves clean.

We need you to unscramble the words to teach us different healthy behaviors. Write the words in the blank spaces.

**A**

After you touch germy surfaces, you should do this to your hands:

hWSA

**B**

The reason we wash our hands is to get rid of these:

mGRES

**C**

When you wash your hands, you should use water and this.

OSPA

**D**

If you sneeze and there aren't any tissues, don't cover it with your hand. Use this.

webio

**E**

For how many seconds should you wash your hands?
