Announcement of production discontinuation

Firstly, thank you for your continuous support in selling our LVS products.

Since its release, the NV-L Series (Safety Breaker Type Earth Leakage Circuit Breaker) has sold successfully.

However, due to difficulties in maintaining production of main materials and electronic parts, and the productivity improvement through standardization of specifications, we must announce its official discontinuation.

Mitsubishi Electric has already introduced alternative model: NV30-FAU Series.

Additional Information

The above listed materials are just the main standard materials. All corresponding options or non-standard materials for the target series are also in scope of discontinuation.

The list of alternatives includes materials currently available in the MEU offer - if you are interested in the entire product line, please contact your regional sales desk.

Customer Action Requested

Mitsubishi Electric will accept customer orders for the above mentioned EOL materials through LTB. They cannot be cancelled. Orders after the LTB date will not be accepted. The order can be scheduled with different delivery dates after LTB.

If you have further questions, please contact your regional sales representative
