**2. Reasons for Discontinuing Production**

Along with finer design rules and growing environmental awareness in recent years, we have difficulty in procuring some conventional parts of the GOT, such as semiconductor parts (microcomputers, memories, ASICs, etc.), STN LCDs, and LCDs with CCFL backlight. We have continued the production by taking actions, such as stocking adequate discontinued parts. Nonetheless, we are about to run out of the parts and have difficulty in maintaining the production and quality systems.
