

**Notice of EU RoHS Directive on Three-phase squirrel-cage Motor**

## ■ Date of Issue

April 2025

## ■ Relevant Models

Three-phase squirrel-cage motor

We would like to express our sincere gratitude for your continued patronage of our Mitsubishi Electric Three-phase motor. Recently, it has been found that the primers used in some three-phase squirrel cage motors manufactured and sold by our company contain phthalate ester, whose use is restricted by the European RoHS Directive, exceeding the regulation value. There is no impact on the quality, function or performance of the product, nor on the environment or health, and there is no problem with its continued use.

However, if you plan to deliver equipment incorporating the target product to Europe, or if you have already delivered the target product to Europe, there are precautions. See below for details.

☉When products are scheduled or have been delivered to Europe For inquiries, please consult your nearest branch office or the distributor.

**1 Target Products**

Products manufactured between January 2021 and January 2025 are eligible.

The target products are listed below.

Serial numbers are given in Section 5.

### **3 When products are scheduled or have been delivered to Europe**

---

#### **3.1 When Delivery to Europe Is Scheduled**

---

If you plan to deliver equipment incorporating the target products to Europe, please consult our branch office or the distributor.

#### **3.2 Products delivered to Europe**

---

When disposing of products in Europe, ask a disposal company that can handle them properly.

When disassembling the product at the time of disposal, use protective equipment and avoid direct contact with the primer paint.

In any case, during product use, the primer coating will not directly encounter the human body.
