Announcement of production discontinuation

Firstly, we would like to thank you for your continued support in selling Mitsubishi Electric products. Since their release, the FR-A8NCE plug-in option has been widely adopted and successfully used in the market. However, as Mitsubishi Electric has introduced the successor model FR-A8NCG, production of the FR-A8NCE will be officially discontinued. The FR-A8NCG plug-in option has been developed to offer enhanced functionality and greater value for future applications. Please note that the corresponding FR-A800-GF and FR-A802-GF inverters will also be discontinued.
