### 1 Introduction

The ITIL 4 Acquiring and Managing Cloud Services qualification is intended to provide candidates with best practice guidance on how to use the capabilities offered by the cloud to identify and pursue opportunities, manage risks, and achieve their desired business outcomes. It is also intended to provide the candidate with the practical skills and knowledge necessary to create, align and integrate key concepts of the ITIL framework to the cloud consumer journey.

The ITIL 4 Acquiring and Managing Cloud Services examination is intended to assess whether the candidate can demonstrate sufficient understanding and application of the concepts covered in the ITIL 4 Acquiring & Managing Cloud Services publication to align and integrate key elements of the ITIL framework such as the Guiding Principles and the Service Value Chain with a 'cloud services user journey'.

### 2 Exam Overview

Material	None	This is a 'closed book' exam. The ITIL 4: Acquiring and Managing Cloud
allowed		Services publication should be used for study, but is NOT permitted to be
		used in the exam.

		select two correct statements from the list.

#### 5 Internal Use (Level 2).

### 3 Question Types

#### Example 'standard' OTQ:

Which is a source of best practice?

- a) Q
- b) P
- c) R
- d) S

#### Example 'list' OTQ:

Which TWO statements about service asset and configuration management are CORRECT?

- 1. It does Q
- 2. It does P
- 3. It does R
- 4. It does S
  - a) 1 and 2
  - b) 2 and 3
  - c) 3 and 4
  - d) 1 and 4

NOTE: Two of the list items are correct. List style questions are never negative.

#### Example 'negative standard' OTQ:

Which is NOT a defined area of value?

- a) Q
- b) P
- c) R
- d) S

NOTE: Negative questions are <u>only used as an</u> <u>exception</u>, where part of the learning outcome is to know that something is not done or should not occur.

Please see the sample paper for an example of the exam format and content.

## Acquiring & Managing Cloud Services Syllabus

The table below specifies the learning outcomes of the Acquiring & Managing Cloud Services qualification, and the assessment criteria used to assess a candidate's achievement of these learning outcomes, subsequent to a course of study.

Note: Principal book references are in parentheses. These refer to the section, but not the subsections within it. All tables that fall within the references of a particular assessment criterion/sub-criterion should be considered as within scope. Figures will be explicitly referenced.

The verb for each assessment criterion indicates the Bloom's level (BL): 'Describe'/'Explain', indicates Level 2 understanding/comprehension, and 'Know how to'/'Apply'/'Identify'/'Carry Out' indicates Level 3 application.
