

### **CHALLENGE**

### **DECENTRALISED GROUND TRAVEL**

- SCOR had agreements with local taxi providers but needed to globalise their mobility — especially since employees found it difficult to travel when arriving at different locations.
- Expensing became complicated since SCOR's business travel wasn't integrated into their expense platform: SAP Concur.
- Administrative work was decentralised, so admin processes took too much time from various teams in different locations.

## **SOLUTION**

### A SINGLE, DIGITAL BUSINESS TRAVEL PARTNER

SCOR partnered with FREENOW for Business to centralise its business travel solution across all cities where SCOR and FREENOW operated jointly.

Onboarding was easy and flexible. SCOR adopted different methods of payment successfully thanks to FREENOW's global framework agreement.

Travel admins could now book trips for employees through FREENOW's desktop Web Booker. Additionally, employees could book taxis in the FREENOW app.

FREENOW's integration with SAP Concur allowed SCOR to automate all expensing for employees. This was supported by FREENOW's Admin Panel, which provided SCOR with quantitative data, integration and 360 reports.

#### **ABOUT**

SCOR offers its clients an innovative range of reinsurance and insurance solutions and services to control and manage risk. Applying "The Art & Science of Risk", SCOR uses its industry-recognized expertise and cuttingedge financial solutions to serve its clients and contribute to the welfare and resilience of society.

## **RESULTS**

## CENTRALISED, TRANSPARENT BUSINESS TRAVEL IN WEEKS

FREENOW deployed a highly effective mobility programme to various SCOR markets.

SCOR's employee adoption of FREENOW rose 3x year over year. There are over 240 active employees using FREENOW.

Automated expensing saved both employees and business travel admins large amounts of administrative work, enabling SCOR employees to focus on other tasks.
