TSNN Top Trade Show List—The Rankings by Net Square Footage (NSF) for 2024

What are largest U.S. shows by attendance, exhibitors and net square footage? Where are the largest trade shows held and what month is most popular? Who produces the largest U.S. trade and consumer shows?

TSNN has the answers. We have reached out to hundreds of show organizers to gather data to produce the most comprehensive list on the U.S. exhibition market. We've crunched the numbers and put together the data in easy-to-use guides based on 2024 event numbers. The following year's list is currently being compiled.

To be considered for inclusion in our list, please email TSNN's VP of Group Content [Danica Tormohlen](#). Below find the rankings by NSF. You'll also find rankings by attendance, number of exhibiting companies, and location. Plus, download complete information on each show and its organizer.
