

Reliable Connections for Steam Equipment

Advanced clamps and assembly tools designed for space efficient assembly, highly reliable product performance and maximum product life cycle.

Peace of mind from reliable connections.

Oetiker is a leading supplier of connecting solutions for steam equipment.

Oetiker's high-performing connecting and assembly solutions provide peace of mind for a wide range of commercial and industrial markets. Oetiker quality and reliability ensures customers meet the most demanding specifications for their applications. With 80+ years of experience, global engineering teams and 13 manufacturing facilities in 30+ countries, Oetiker delivers a trusted connection solution tailored to customer specific needs.

CONNECTING SOLUTIONS

Oetiker clamps provide uniform compression and sealing in a restricted assembly spaces for steam equipment manufacturing. With connecting solutions between the water tank, pump, boiler and nozzle, Oetiker connections withstand high working pressure and assures hot water and steam runs leak-free in Steam Irons and Cleaners.

1-Ear Clamps 154

Compact one-piece clamp: for robust, secure connections, miniature sizes

Deburred edges: reduced risk of damage to parts being clamped

Small diameters: can be manufactured in miniature sizes

StepLess® Ear Clamps 167

Narrow band: concentrates transmission of clamping force, less weight

StepLess® over 360°: uniform compression or uniform surface pressure

Stainless Steel band material: ensures highest performance

StepLess® Ear Clamps 117

Narrow band: concentrates transmission of clamping force, less weight

StepLess® over 360°: uniform compression or uniform surface pressure

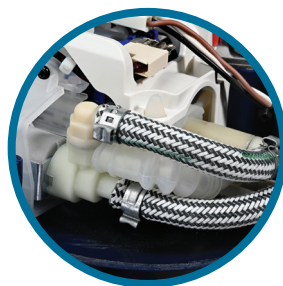

Specially formed strip edges: reduced risk of damage to parts being clamped

Common Oetiker Steam Equipment Connections:

Temperature Resistant.

Space Efficient.

Electric Valve

Pump

ASSEMBLY TOOLS

Oetiker's dedicated local engineer teams make full installation and removal tool recommendations, ensuring Steam Equipment connections have the right tool for efficient and effective installations every time. These tools are locally stocked and always available.

ECP 01

HO 3000

Electronic
Pincer/Crimper

Pneumatic & Electronic Pincers

Oetiker assembly solutions for high-volume assembly of Ear Clamps offer:

- High efficiency
- Process reliability
- Closure verification
- Optional Ergonomic grips

Compound Pincers

Single
Action

Hand Clamp
Cutter

Manual Assembly & Disassembly Tool Options

Oetiker manual tools offer:

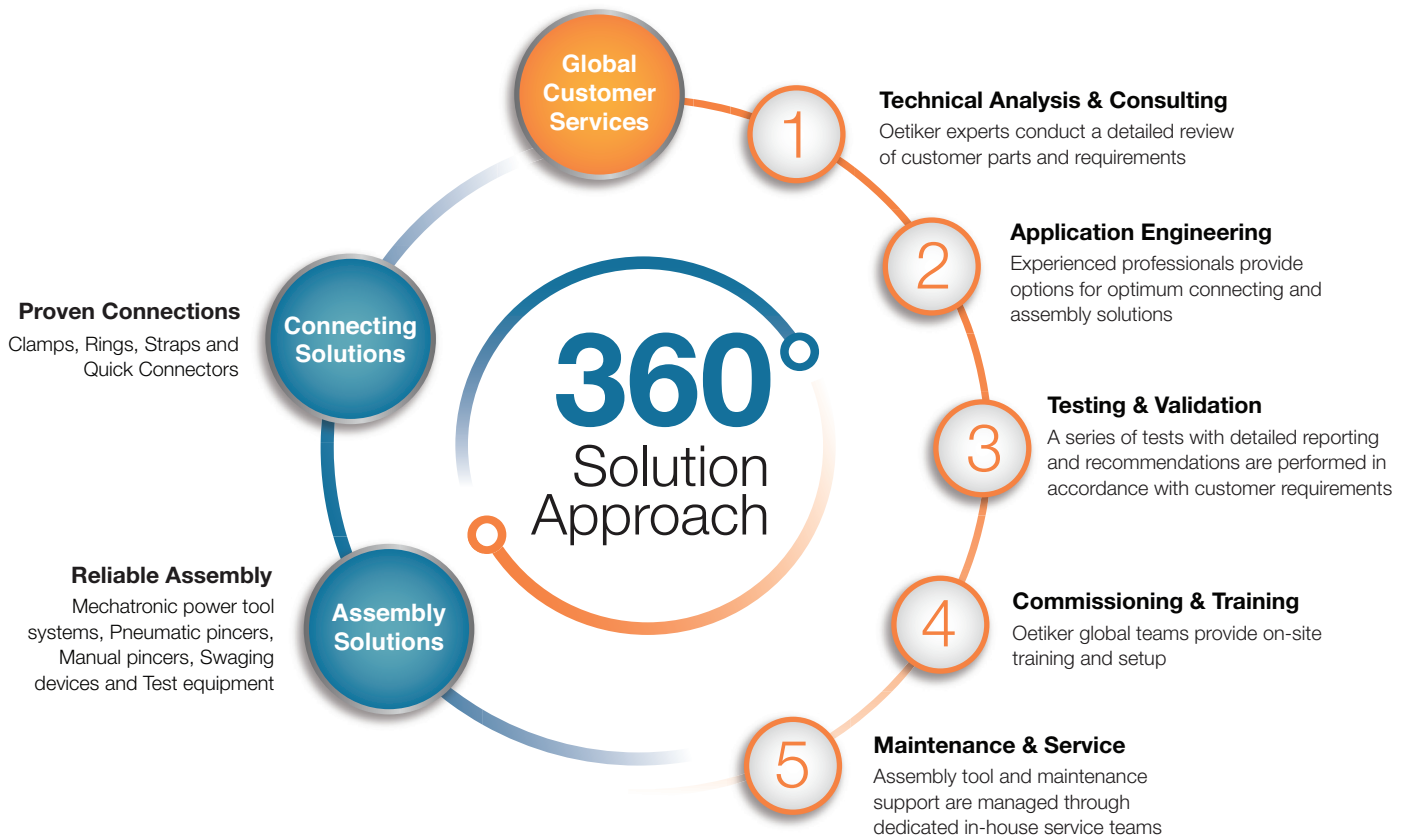

- Compound and single action
- Superior strength and high closing force
- Economic designs
- Robust jaw pivots for increased durability

360° Solution Approach.

Driving Innovation.

Oetiker helps customers drive innovation through all phases of development by utilizing our 360° solution approach. Pioneering reliable fastening components for over 80 years, we design, test and deliver high quality connecting and assembly solutions that are simpler, smarter and stronger than ever before.
