Oetiker Metallic Quick Connector

Engineered for Turbocharger Excellence.

Reliable Connections

Recommended for
Turbocharger Applications

Performance. Reliability. Efficiency.

Benefits:

Faster, Easier Assembly:
Tool-free connection reduces installation time and labor costs.

Compact Size:
Minimizes space requirements within the Turbocharger system.

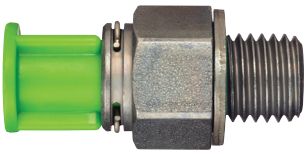

Enhanced Reliability:
Engineered for robust, leak-proff performance in demanding Turbocharger envirnoments, ensuring long-lasting and secure connections.

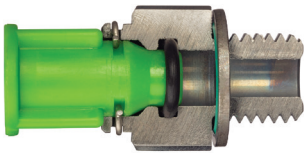

Reduced Assembly Risk:
Optional assembly verification helps prevent errors and ensures quality.

Quick Connect Features:

- **A** Retainer Clip
- **B** Internal Seal
- **C** Body
- **D** Optional Bonded Seal

For top tier Turbocharger performance, this product offers a retainer clip to ensure a secure and robust connection. An internal seal that provides a tight, leak-proof barrier. A coated steel body for harsh conditions, and an optional bonded seal for enhanced sealing capabilities depending on application needs.
