BACK, AND STRONGER THAN *EVER BEFORE.*

At Seatrade Maritime Middle East, we've been by your side for almost 20 years.

And over the last year, we've proudly supported you as you tackled extraordinary disruption with unwavering resilience.

Bold and brave, you rapidly adapted to the unknown and kept the world moving. As we look towards a new horizon, Seatrade Maritime Middle East will return as a live event in 2021 with opportunities to learn, grow, collaborate and innovate in abundance.

It's been a challenging, turbulent journey.
But together, we've emerged stronger than ever before.

It is my very great pleasure to welcome each and every one of you to this very special 17th anniversary of Seatrade Maritime Awards Middle East, Indian Subcontinent and Africa Awards – held for the first time completely virtually and allowing us to share this landmark occasion with industry friends and colleagues globally.

On behalf of Seatrade and Informa Markets, I would like to thank all those who have supported this scheme and for sharing this special occasion with us.

The 2020 virtual edition might take place online, but our awards are very much in celebration of the achievements of the resilience of the maritime industries of the Middle East, Indian Subcontinent and Africa, to continue to operate and, in some cases grow, in these unprecedented times.

The Seatrade Maritime Awards have been supporting, recognising and rewarding the progress made for the past 17 years. Of course, a huge amount has changed over that time in market conditions, new technologies and regulatory challenges. Yet the message from these Awards is that the industry in the region continues to rise to the challenges it faces, with tenacity and ambition.

Each year, the Seatrade Maritime Awards attract a high number of entry submissions, with this year nearly 100 entries submitted. In this special 2020 virtual edition, the Awards will recognise nine winners in a shortened and more focussed celebration including a special award for 2020 recognising an exceptional response to the challenges posed by the pandemic.

The core categories encourage the pursuit of excellence in a range of areas, including sustainability, Intelligent Shipping and Logistic Solutions. It is also part of the role of the Seatrade Maritime Awards to recognise exceptional contributions from individuals through a sequence of Personality Awards, with the winners chosen by Seatrade's editorial

board and this year introduces a new award for Diversity & Equality.

2020 once again also saw leading individuals from the industry lend their time and expertise generously to judge the submissions in these core categories. We would like to extend our thanks to the high-calibre independent judging panel comprising of 17 judges for their time, tireless dedication and efforts involved. We would also like to extend our personal thanks to Chair of Judges, Tony Field, President - Middle East & Africa Marine & Offshore, Lloyd's Register for the support and contribution in his first year within the role. We look forward to receiving his feedback and ideas for how we can continue to improve and grow the process over the coming 12 months.

I would also like to take this opportunity to extend my congratulations to all those shortlisted for their outstanding achievements. Your accomplishments and good work have helped in enhancing the development of the industry at all levels.

Lastly, I would like to express our sincerest thanks to all of our sponsors for their incredibly generous support of the event: ADNOC Logistics & Services, Abu Dhabi Ports, Aries Marine & Engineering Services, DP World UAE Region, Drydocks World, Tomini Shipping and Tristar Group. And, of course, the supporting partners which include: Arab Women in the Maritime Association (AWIMA); Institute of Chartered Shipbrokers, Middle East Branch; Institute of Marine Engineering, Science & Technology UAE Branch; INMEX SMM India; Young Ship Dubai; Arab Academy for Science, Technology & Maritime Transport in Sharjah (AASTS) and The Mission to Seafarers who is once again our Official Charity.

We hope you all have a fantastic virtual occasion, and we look forward to welcoming you back in 2021 – where we very much hope to see you all in person.

Logistic Solution of the Year Award

This Award will recognise a new technology or system or a new infrastructure development introduced in the past year, which has made a significant contribution to the advancement of efficiency in the door to door movement of cargo. Entries will be welcomed for innovative solutions which can demonstrate quantifiable efficiency gains with supporting evidence.

Award Presented by:

Chris Peters
Chief Executive Officer - Maritime Logistics
Tristar Group

Tristar Shipping is part of the Tristar Group which is a fully integrated Energy Logistics business serving the downstream oil and gas industry. The group operates in 21 countries and territories globally.

It owns and/or operates 33 chemical, oil and gas tankers and bulk carriers trading globally. The shipping team prides itself on providing tailor-made solutions to prestigious clients all over the world, including oil majors and traders, using the highest technical and ethical standards.

The team also strives to deliver safe, reliable and environmentally friendly marine transportation solution at a competitive price through a group of professional employees and dedicated service providers ashore and afloat.

As a follow up to the 'Safety at Sea' Conference it organised in November 2019 to address mental health issues affecting workers at sea, Tristar Shipping has conducted several town hall-style and online Psychological First Aid (PFA) workshops for vessel masters and senior officers from December 2019 to May 2020.

موانئ أبوظبي

ABU DHABI PORTS

ABU DHABI PORTS

WWW.ADPORTS.AE

The COVID-19 pandemic has directly impacted food security across the globe, increasing the need for unprecedented food storage capacity. To ensure sufficient future food resources, Abu Dhabi Ports Logistics (ADPL) designed an efficient model to support the Abu Dhabi Government's Food Security Program, formed to ensure constant food supply to the UAE market.

ADPL has invested in a 45,000 sqm state-of-the-art facility, with a temperature range between -36C to +26C with low-to-zero carbon emissions. The facility is strategically located equidistant between Abu Dhabi and Dubai, helping reduce journey times, optimising fleet utilisation, lowering costs and minimising environmental impact.

موانئ دبي العالمية

DP WORLD

DP WORLD, UAE REGION

WWW.DPWORLD.AE

DP World aims to make trade smarter by harnessing the massive opportunities offered by digital technology to make the whole supply chain work better. Over the past year, we've stepped up Digitalisation by rolling out new tools for logistics, cargo owners and supply chain operators. Some of these include:

- The Digital Freight Alliance that gathers freight forwarders on to a single globe-spanning platform.
- Acquiring three key shipping and cargo booking tools: searates.com, landrates.com and airrates.com
- Our global operations are now integrated with TradeLens, a block chain-based digital container logistics platform.

- Our single window platform for cross-border trade, Dubai Trade, introduced the Electronic Delivery Order (E-DO) during the lockdown to assist importers to carry on with their business activities from home.

- We made supply chain even more resilient when our online platform Dubai Trade, launched ZADI, (<https://zadi.net/>) an integrated single widow system for automated end-to-end support for the F&B sector.

- Manasah, (<https://www.manasah.com>) a digital e-commerce platform for UAE-based SMEs was launched during the lockdown to allow small traders to reach consumers and partners working from home.

Pandemic Response Award

The pandemic has created a unique set of challenges for maritime companies' relationships with their employees, stakeholders, and with the communities they operate in. This award recognises an outstanding example of a corporate response to one or more of these challenges.

Award Presented by:

Revd Canon Andy Bowerman
Regional Director, Middle East and South Asia,
The Mission to Seafarers

Day and night, The Mission to Seafarers is on call for seafarers in over 200 ports around the world. With over 90% of world trade carried by sea, providing work to 1.5 million seafarers, we offer much needed practical, emotional and spiritual support through ship-visits, our seafarers' centres and a range of welfare and emergency support services. All of which is made possible by through our global network of chaplains, staff and volunteers.

Our mission is to care for the shipping industry's most important asset: its people. We are grateful for the constant acts of kindness that allow us, in turn, to serve the people that make sacrifices to keep our global economy afloat.

Sustainability Award *Finalists*

ARIES MARINE & ENGINEERING SERVICES

WWW.ARIESMAR.COM

In the last 23 years of our service to the maritime industry, Aries Marine has demonstrated passion, perseverance, and resilience in everything we do. As a 100% service-oriented organisation, we aim to “Inspire” and “Create” sustainable and value-based products and services to help our future generation. The maritime industry has undergone a huge transformation in 2020 in switching

to greener fuel and in increasing implementation of the ballast water management code. While becoming the industry leader by working on over 1000 ships so far, on their compliance, Aries Green solutions now also offer a range of services towards Dual fuel conversions, alternate fuels, green Recycling solutions, optimised efficiency solutions as well.

WWW.GMSINC.NET

GMS is in the frontier to educate, equip and execute sustainable ship recycling activities. Our Sustainable Ship and Offshore Recycling Program assists ship recycling yards in preparation of a ship-specific ship recycling plan, identification and safe removal & disposal of hazardous waste. We provide tailor-made training

specific to the type of ships for workers, thus ensuring safe and environmentally sound recycling of ships. We collaborate with the premier technical institutes like IIT Gandhinagar, where we are researching innovative solutions for the safe removal of paint from the surface of ship before recycling.

We take it personally

ORIENT OVERSEAS CONTAINER LINE

WWW.OOCL.COM/ENG

Being a responsible corporate citizen, OOCL has been proactively engaged stakeholders in formulating our sustainability strategies in terms of environmental management, economic development, and social responsibility. To support IMO 2050 decarbonisation target, we invested in green technologies and new vessels to reduce carbon emissions and enhance operational efficiency. Going beyond the environmental regulations,

OOCL has leveraged its own Global Vessel Voyage Monitoring Centre (GVVMC) and Robo-advisor solution to further reduce bunker consumption by increasing berth visibility. During the pandemic, OOCL has been continuously exploring sustainable development opportunities and innovatively addressing relevant crucial UNSDGs to create long-term value for our stakeholders.

Sustainability Award *Finalists*

محطة بوابة البحر الأحمر
RED SEA GATEWAY TERMINAL

WWW.RSGT.COM

RED SEA GATEWAY TERMINAL

RSGT is pursuing environmentally sustainable terminal operations through investment in new electrically-powered container-handling equipment, which reduces overall diesel fuel usage and its associated harmful greenhouse gas emissions. As RSGT continues with the planned USD \$1.7 billion in equipment and improvements to the expanded terminal over the next 30 years, the transition to sustainable power supplies and reduced-emission terminal operations will accelerate. The two latest-generation

STS Cranes currently on order will be electrically-powered using advanced technology to improve operating efficiency. All of RSGT's existing STS Cranes are electrically-powered, reflecting our early commitment to sustainable operations during our first decade since the terminal's establishment in 2009. Ten new Rubber-Tyred Gantry Cranes (RTGs) on order will also use hybrid electric/conventional power, which will significantly decrease CO2 emissions in yard operations.

Intelligent Shipping Award

As the industry in the region accelerates its engagement with digital technologies and automated solutions in port and at sea, this Award identifies an exceptional example of the successful implementation of a new technology solution which offers measurable efficiency benefits.

Award Presented by:

Tony Field

Vice President - Middle East & Africa, Marine & Offshore,
Lloyd's Register

Lloyd's Register
Marine

We started out in 1760 as a marine classification society. Today, we're one of the world's leading providers of professional services for engineering and technology in over 75 countries. The profits we generate fund the Lloyd's Register Foundation, a charity which supports science and engineering-related research, education and public engagement around everything we do.

We provide classification, compliance and consultancy services to the marine and offshore industry, helping our clients design, construct and operate their assets to the highest levels of safety and performance with our long-standing reputation for integrity, impartiality and technical excellence.

In a world of increasing complexity – overloaded with data and opinion – we know that our clients need more than technology to succeed. They need an experienced hand, a partner to listen, cut through the noise and focus on what really matters to them and their customers. Our engineers and technical experts are dedicated to assurance. That means a commitment to embracing new technology, and a deep rooted desire to drive better performance. So we consider our customers' needs with diligence and empathy, then use our expertise and over 260 years' experience to deliver the smart solution for everyone. After all, there are some things technology can't replace.

The Dynamic Under Keel Clearance system (DUKC®) is a comprehensive digital solution for UKC management, underpinned by detailed modelling of port operations, numerical analysis of ship motions, hydro-dynamic models, high resolution channel survey data, and the AI assisted assimilation of real-time and forecast environmental conditions. Connecting advanced calculation engines

with the Port's available IoT devices and digital data sources, the Saqr Port DUKC® has allowed the sailing drafts to be increased whilst the real-time monitoring capabilities ensure transit safety. DUKC® has enabled the Port's customers to ship more tonnes with fewer vessels, reducing freight costs and Green House Gas emissions.

WWW.STEELCORR.COM

Our app is among one of the first to use Artificial Intelligence for Corrosion monitoring. It is also one of the first that enables sharing and storage of timeline videos, in addition to photos and data. Customers can collaborate with other stakeholders such as the paint supplier,

ship superintendent, vessel manager with the assurance that their data is securely hosted and protected by DNV GL. The information can be used to support maintenance and dry-docking planning thus saving time, effort and money.

Maritime Marketplace

Diversity & Equality Award

Recognising a company or individual who has promoted the principle of diversity of employment across the region.

Award Presented by:

Capt. Mohamed Al Ali
Senior Vice President Ship Management
ADNOC Logistics and Services (L&S)

ADNOC Logistics & Services is a fully integrated commercial shipping and maritime logistics company that utilises the latest technology and leverages strategic partnerships to provide a reliable, cost-effective and efficient service to its customers.

ADNOC Logistics & Services, the Maritime arm of ADNOC has more than 40 years of experience and assets from shipping, offshore and onshore services. It manages a fleet of over 120 vessels and a logistics base of 1.5 million square meters. It serves customers both within ADNOC Group and internationally, facilitating the development of the UAE's energy industries and the nation's position as a global energy provider.

ADNOC L&S creates value through four primary areas of activities: Shipping operations with a diversified fleet for LNG, crude, refined products, dry bulk and container transport; Marine Services (petroleum port operations, diving services and oil spill response) Offshore and Onshore Services (offshore logistics and integrated support services, integrated logistics base and a marine passenger terminal).

The company is led by CEO AbdulKareem Al Masabi, also Chairman of the UAE Shipping Association since 2018.

Outstanding Achievement Award 2020

Following a challenging year, this special Award will be presented to an individual who has made a special contribution to the enhancement of the industry and its standing in the region in the previous 12 months.

Award Presented by:

Capt. Rado Antolović
Chief Executive Officer
Drydocks World

A **DP WORLD** Company

Over the past 37 years, Drydocks World Dubai has become a leading provider of marine, offshore and onshore services to the shipping, oil, gas and energy sectors. Conceived as an ambitious project under the guidance of H.H. Sheikh Rashid Bin Saeed Al Maktoum, the late Ruler of Dubai, the yard is strategically located in a rapidly developing region of the world.

Drydocks World maintains high HSEQ and operational excellence standards, utilising the yards world-class infrastructure to exceed the expectations of clients. The dedicated workforce and state-of-the-art-facilities at Drydocks World complete over 300 projects per year, with a record of handling 42 refurbishment projects simultaneously.

The yard is spread over 200 hectares; 4 dry docks with the largest dock capable of handling the world's largest ship and over 3,700m of berth space. Innovative projects for key global players have been constructed in Drydocks World, breaking records for some of the largest new build offshore fabrication projects worldwide.

Personality of the Year Award 2020

Recognising an individual who has contributed exceptional leadership and innovative thinking to the industry in recent years.

Award Presented by:

Numair Shaikh
Head of Shipping
Tomini Group

Tomini Shipping, registered on the Norwegian Over the Counter market ("the NOTC"), is a ship-owner and ship management company with over 65 years of industry experience. Commercial management is handled through our partners Alpina Chartering in Denmark. Tomini operates a young fleet of bulk carriers.

Our vision is to be the most trusted partner in global transportation and maritime services to our clients guided by our values and our commitment to safety, corporate responsibility and sustainability.

Our business philosophy is built on trust and building deep relationships that focus on long-term cooperation with our partners and clients.

Our experienced teams in Dubai, Denmark and Mumbai work to create the highest level of value, reflecting our belief that diversity drives creativity, collaboration and understanding of client needs.

Tomini Shipping is QUALSHIP 21 certified and recognised by the US Coast Guard as an organisation having best in class procedures and policies.

Lifetime Achievement Award 2020

This award will honour an individual who has made a significant and lasting contribution to shipping and the maritime industry.

Award Presented by:

Dr. Noura Al Dhaheri
Head of Digitalization Cluster, Abu Dhabi
Ports & CEO, Maqta Gateway

Established in 2006, Abu Dhabi Ports is a global trade enabler strategically based in the capital of the United Arab Emirates and is part of ADQ, one of the region's largest holding companies with a broad portfolio of major enterprises spanning key sectors of Abu Dhabi's diversified economy.

Abu Dhabi Ports is the region's premier facilitator of logistics, transport, and trade, bridging Abu Dhabi with the world. Abu Dhabi Ports owns and manages 11 ports and terminals in the UAE and Guinea.

Abu Dhabi Ports' largest subsidiary is Khalifa Industrial Zone Abu Dhabi (KIZAD), the integrated trade, logistics, and industrial hub, with the flagship, deep water Khalifa Port as its maritime gateway.

Additional subsidiaries of Abu Dhabi Ports include: Abu Dhabi Marine Services (SAFEEN), Maqta Gateway, Abu Dhabi Maritime Academy, Abu Dhabi Terminals (ADT), Abu Dhabi Cruise Terminal, Fujairah Terminals, ZonesCorp and MICCO.

THE MISSION TO SEAFARERS

Day and night, The Mission to Seafarers is on call for seafarers in over 200 ports around the world. With over 90% of world trade carried by sea, providing work to 1.5 million seafarers, we offer much needed practical, emotional and spiritual support through ship-visits, our seafarers' centres and a range of welfare and emergency support services. All of which is made possible

by through our global network of chaplains, staff and volunteers.

Our mission is to care for the shipping industry's most important asset: its people. We are grateful for the constant acts of kindness that allow us, in turn, to serve the people that make sacrifices to keep our global economy afloat.
