# HELLO *luxury* NEW COLLECTIONS

Say hello to our luxurious new collection of wallpapers that have recently been added to the Graham & Brown range. These high quality fibrous metallic wallpapers are modern yet classic in their designs and are perfect for introducing rich opulence and quality to your walls. With a range of classic colourways available, we have ensured perfection!

Taking inspiration from timeless textures, the second instalment to Graham & Brown's first drop comes in the form of three new sensory designs - Florentia, Lancet and Centra. Each new design has four perfectly partnered paints and fabrics to create a full room solution.

Textured wallpaper not only delights the visual senses, but it also plays with the haptic senses. We have seen a huge growth in popularity towards surrounding ourselves with feel-good fabrics and textures, when playing with all the senses in our modern interiors we need to feel cocooned and connected with positivity. Textured wallpaper creates a subtle backdrop to other features in the interior scheme it works well when using a pared back colour scheme, but similarly layering the tones with differing textured materials can create a really sophisticated look.

# *How to* **USE EXTERIOR EGGSHELL**

*It may first seem as though exterior eggshell paint is limited to just front doors, but you may be surprised by its variety of uses.*

Although we love a front door makeover, we can't help but shout about all the other ways you can use exterior eggshell. Our quick-drying, weather resistant finish can be used on wood, metal and plastic so its perfect for spreading the colour across every surface of your garden.

Your garden gate can make just as much of a statement as your front door, serving as the entrance to your garden. So why not impress with a bold pop of colour? We recommend using a pink or purple shade such as Ellie or Spiced Mulberry to contrast the greenery of the garden.

SPICED MULBERRY

ACCRINGTON ROAD

BLUEBIRD

Exterior eggshell can also be used to give your old garden furniture a new lease of life. Create a pastel paradise perfect for Spring with a baby blue shade like Bali Blue or Bluebird.

For a real statement, go all out with exterior eggshell on your greenhouse. Try a deep green shade like Uluwatu for a more blended subtle look or try a jewel tone like Tiru for a bolder look. Even if you don't have a garden full of things to paint, you can still go back to basics with a pop of colour on your front door. For extra impact, try painting your window frames to match your door. We love our sage green shade Accrington Road for this look.

*How to*

# UPCYCLE PLANT POTS FOR *spring*

Transform unused and old plant pots in stylish outdoor accessories ready for spring.

## *You will need:*

- Old plant pots
- Graham & Brown Exterior Eggshell Paint
- Small & large paint brushes
- Plants

## *Paints used:*

## *Step 1*

Clean up some old plant pots. If you don't have any already you can buy them for a couple of pounds each at your local DIY store.

## *Top tip*

Use range of sizes to add some variety!

## *Step 2*

Apply two coats of G&B exterior eggshell paint. Ensure you have painted around the inside of the pots as well. Now leave to dry for one hour.

## *Step 3*

Once touch dry, start your design. Create basic shapes inspired by fruit. Add green leaf outlines to fill any gaps. Now leave to dry again.

## *Step 4*

Use smaller brushes to add details and extra colour, this will make your design more exciting!

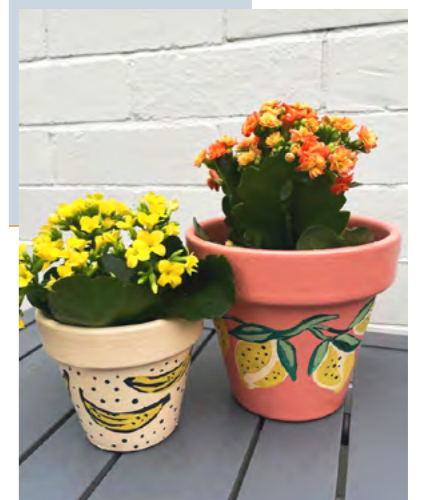

## *Top tip*

If you're adding dots, use the end of a paint brush or pencil dipped in paint!

## *Step 5*

Repeat these steps for as many pots as you like. Once your design is dry, it's time to add some life! Head to the garden centre and select a range of floral plants.

## *Step 6*

Your pots are now ready to be displayed outside! Enjoy!
