Read all about us!

We love nothing more than leafing through the top interior press magazines and being inspired!

From our perfectly partnered wallpaper and paint to our stunning murals, we have something for everyone!

Hello GORGEOUS

The year is in full swing, spring has sprung, and it's time to say hello to longer days, lighter jackets, and leafier landscapes. And as we emerge from our wintry cocoons, it's the perfect time to refresh our homes to reflect our breezier dispositions.

Enter our gorgeous new collections! Whether you want to wake up to the joy of a blooming meadow to start your day off right or give some love to the home office to keep you focussed when the blue skies outside are calling, our newest palettes and patterns have you covered.

Leading the charge is the luxuriously chic Amherst's Garden design, inspired by the majestic Lady Amherst pheasant that once roamed the stateliest of English gardens. The design is available across our window dressing range and on a shimmering wallpaper that reflects the springtime light just right. Choose from satisfyingly subdued tones of Mulberry and Sage, or be bold with the warmer options of Teal and Bronze; each colourway has four perfectly partnered paints for a full-room solution.

"The Greenskeeper design illustrates a unique lattice style fencing pattern giving a gentle nod to the intertwining architecture that takes us on an endless journey," explains James Greenwood, Interior Expert at Graham & Brown. "The repetition of the geometry in the design welcomes tranquillity, giving us space to think and inviting creativity. I would recommend using this design in an office space, the relaxing design will welcome innovative thoughts and originality."

The Wallflower collection is the perfect design to welcome spring in, with palettes reminiscent of each stage of the day. The Day colourway features softer tones on a sage backdrop that's perfect for the early rising optimist, while the Night Garden colourway boasts pops of colour against black for maximum night-time escapism. Style your choice with perfectly partnered window dressings and paints.

ARTIST CLARISSA HULSE'S LATEST LUXURY WALLPAPER COLLECTION IS AN INVITATION TO WANDER INTO A MAGICAL WILTSHIRE MEADOW - WHERE WILDFLOWERS AND SEEDHEADS GLOW AGAINST LUMINOUS, OPEN SKIES.

This collection is the culmination of over twenty years spent handprinting botanical designs, and is a celebration of the timeless beauty of the natural world. Every leaf, stem, bud and flower was collected by Clarissa in the wilds of Wiltshire, and carefully photographed back in her London studio.

Clarissa's secret is to then interfere as little as possible with nature's own compositions, in order to capture the effortless elegance of organic patterns.

Renowned for her evocative use of colour, the four colour palettes in this collection - morning dew, golden hour, dusky skies and midnight garden - have been meticulously selected by Clarissa to create more than just a colour scheme.

The ombre hues capture an atmosphere, which will lift and transform any room.

HOW TO ...

EASTER *hanging baskets*

YOU WILL NEED

- A wicker hanging basket
- Paint brushes
- 2-3 G&B Exterior Eggshell paints
- Seasonal bedding plants
- Compost

STEP ONE

First add an all over base colour using two coats of Exterior Eggshell paint.

TIP: *Hang up to dry!*

STEP TWO

Get creative!
Use a contrasting paint colour to add a design. Then set aside to dry.

TIP: *Add a smaller brush at this stage to ensure accurate results.*

STEP THREE

Finally, fill your basket $\frac{3}{4}$ with compost. Using your fist create holes to pot your seasonal bedding plants.

TIP: *Make sure to leave space between each plant so they have room to grow!*

Let's get to know **EACH OTHER** *first ...*

The real reason you shouldn't skip the sample stage on your next project

We've all done it before, fallen in love with a wallpaper or paint shade and ran with it, only to get the 'ick' when it's on the walls. That's why we always recommend sampling products before committing to the final purchase. Spending a little bit of money planning the project could save you a lot in the long run.

There is a little more consideration to make than just throwing the paint, wallpaper or fabric on the wall, so we have some recommendations to make sure you make the right decisions when it comes to decorating your room.

Don't rush to make a decision. Move the sample around the room, or if you've opted for a paint tester pot, paint little patches around the room. Colour can appear to change and can even depend on the direction the light in the room comes from. Take a look at different

times of day, don't just review once in a mad dash to leave the house. As natural light moves around it can have an effect on how the eye perceives the colour, more so heading into the evening when you will use artificial lighting in the room.

Stuck between two? Eyes can get easily overwhelmed. You will perceive colour differently depending on what colour it is placed next to. Make sure you check your colours in isolation to ensure your mind doesn't play any tricks!

Colour theory goes the same for wallpaper, but with one added food for thought! If you are planning to refresh your wall with a new design but keep your paint the same, this is your opportunity to check your scheme will still work. It's also an opportunity to see the texture of the wallpaper and if you opt for an A3 sample see the scale of the design.

Now are you ready to start sampling?
