

IMPORTANT INFORMATION

1. This Tax-Free Investment is offered to individuals only (i.e. not for trusts, companies, etc.). You may invest for yourself or on behalf of others, for example, your children. "Tax-free" means that you will not pay income tax on the interest earned in the portfolio, or dividend withholding tax on the dividends earned in the portfolio, and when you eventually sell, you will pay no capital gains tax on the growth of the value in your portfolio (section 12T of the Income Tax Act). You can invest up to R36 000 each year, until your total investment reaches R500 000 which is the lifetime limit that you are allowed to save in a tax-free account. If you go over these limits you will be taxed at 40% of the extra amount by SARS.
2. Please complete all the relevant sections. Investors in Shari'ah-compliant unit trusts must sign section 4 as well.
3. The completed form and supporting documentation (see below) can be scanned and emailed to uttransactions@oldmutual.com. Illegible and incomplete forms may lead to delays. Contact the Old Mutual Unit Trust Client Service Centre at 0860 234 234 if you have any queries.
4. The Effective Annual Cost (EAC) is a standard industry measure for your information and to facilitate comparing the cost of an investment over specific periods. (Visit www.oldmutualinvest.com for more information and to access the EAC illustrator for this additional investment.) The EAC of your investment will be confirmed in writing once your investment has been processed.

6. DISCLAIMER

We aim to treat our clients fairly by giving you the information you need in as simple a way as possible to enable you to make informed decisions about your investments.

- We believe in the value of sound advice and so recommend that you consult a financial adviser before buying or selling unit trusts. You may however, buy and sell without the help of a financial adviser. If you do use a financial adviser, we remind you that they are entitled to certain negotiable adviser fees or commissions.
- You should ideally see unit trusts as a medium to long term investment. The fluctuations of particular investment strategies affect how a fund performs. Your fund value may go up or down. Therefore, we cannot guarantee the investment capital or return of your investment. How a fund has performed in the past does not necessarily indicate how it will perform in the future.
- Our cut-off time for client instructions (e.g. buying and selling) is at 15:00 each working day for all funds, except the Money Market Funds, which is at 13:00. These are also the times we value our funds to determine the daily ruling price (other than at month-end when we value the Old Mutual Index Funds and Old Mutual Multi-Managers Fund of Funds ranges at 17:00 close). Daily prices are available on our public website (www.oldmutualinvest.com) and in the media.
- The daily ruling price is based on the current market value of the fund's assets plus income minus expenses (NAV of the portfolio) divided by the number of units in issue.
- The fund fees and costs that we charge for managing your investment is accessible on the relevant fund's minimum disclosure document (MDD) or Table of fees and charges, both available on our public website (www.oldmutualinvest.com), or from our contact centre (0860 234 234).
- Additional information on this proposed investment can be obtained, free of charge, from our public website or our contact centre.
- Funds may borrow to pay client disinvestments and may engage in scrip lending. A process of ring-fencing of withdrawal instructions and managed pay-outs over time may be followed should excessive withdrawals from a fund place the fund under liquidity pressures.
- Old Mutual Unit Trust Managers (RF) (Pty) Ltd has the right to close a portfolio to new investors in order to manage it more efficiently in accordance with its mandate.
- Old Mutual Unit Trust Managers (RF) (Pty) Ltd is a registered manager in terms of the Collective Investment Schemes Control Act 45 of 2002.
- Old Mutual is a member of the Association for Savings & Investment South Africa (ASISA).

Money Market Funds:

A Money Market Fund is not a bank deposit account. Its unit price aims to be constant but investment capital is not guaranteed. The total return is primarily made up of interest (declared daily at 13:00) but may also include any gain/loss on any particular instrument. In most cases this will merely have the effect of increasing or decreasing the daily yield, but in the case of abnormal losses, it can have the effect of reducing the capital value of the fund. The published yield is calculated using the average of the fund's previous seven days' net income (and assumes all income was reinvested). This figure is then annualised, which is the weighted average compound growth rate. A process of ring-fencing of withdrawal instructions and managed pay-outs over time may be followed should excessive withdrawals from a fund place the fund under liquidity pressures.

Income Funds:

Income funds derive their income primarily from interest-bearing instruments as defined. The published yield is a current yield and is calculated daily. The value of underlying assets of Income funds are marked to market on a daily basis.

Fund of Funds:

A fund of funds is a portfolio that invests in other funds in order to meet the investment objective of the fund of funds. Fund of funds can invest in local, foreign or offshore funds which levy their own charges, and may result in a higher fee structure.

Feeder Funds:

A feeder fund is a portfolio that invests all of its capital in a single underlying fund. This underlying fund can be a local, foreign or offshore fund and levy its own charges which may result in a higher fee structure.

Third-Party Named Funds (co-branded):

Old Mutual Unit Trust Managers (RF) (Pty) Ltd is the manager of Adviceworx, Old Mutual Multi-Managers and Public Investment Corporation SOC Limited suites of co-branded funds and retains full legal accountability.

Funds holding foreign assets:

Some funds hold assets in foreign countries and therefore may have risks, in these countries, regarding liquidity, the repatriation of funds, political and macro-economic situations, foreign exchange, tax, settlement and the availability of information.
